

CLEARING THE CARBON CONFUSION

WHAT DOES IT MEAN FOR YOUR FARM?

DAY 1: MONDAY 26TH MARCH 2012: DINNER & SPEAKERS

6.30PM
TO 9.30PM

Dr Richard Eckard - Greenhouse gas emissions and the Carbon Farming Initiative
Mick Keogh Australian Farm Institute - Proactive farming in a low carbon economy
Stephen Wiedemann - Harnessing the power of poo
Louisa Kiely - Carbon markets - the ins and outs
Dr Neil Moss - Making the science deliver for your farm business

Cost \$10 for dinner and refreshments (pay at door)

Venue Jamberoo School of Arts 30 Allowrie St Jamberoo NSW

DAY 2: TUESDAY 27TH MARCH 2012: FIELD DAY PRESENTATIONS & LEMON GROVE FARM VISIT

10AM

- Join Dr Neil Moss on a farm walk where he will share pasture trial results that increase pasture protein and energy, lift milk production by up to two litres a day and use less fertiliser.
- Associate Professor Richard Eckard will tell you "10 things you can do today on your farm to reduce your carbon footprint and put money in your pocket in the process".
- Stephen Wiedemann - Harnessing the Power of Poo on Farm. Steve Wiedemann is a carbon and nutrient management specialist currently running a number of national R&D projects looking at the carbon footprint of livestock enterprises. He works regularly with a wide range of farmers in the area of nutrient management.

No Cost - Morning tea & lunch provided

Venue Lemon Grove Research Farm Factory Lane Jamberoo NSW

2:30PM Clover Hill Farm Walk, Clover Hill Rd Jamberoo

RSVP Essential to Southern Rivers CMA P: 02 4429 4444 E: peter.pigott@cma.nsw.gov.au
