

## ARE YOU A LANDHOLDER INTERESTED IN MANAGING COASTAL WETLANDS ON YOUR PROPERTY?

Would you like support in managing areas of coastal wetland present on your property?

Over the next 3 years South East Local Land Services has funds available to support landholders, in priority areas, to undertake works on coastal wetlands including salt marsh, mangroves, riparian areas, coastal floodplain, swamps, lakes and estuarine areas.

Funds can be used to manage and protect coastal wetlands including:

- Fencing to control stock and unauthorised recreational access.
- Off-stream stock watering points.
- Removal and control of weeds including blackberry, sharp rush, arrowhead, invasive vine species like madeira vine and japanese honey suckle.
- Feral animal control including fox, rabbit, deer, goat and pig.
- Removal of barriers to flow such as removal or modification of floodgates and/or crossings.
- Revegetation to maintain and connect vegetation buffers, address erosion or improve habitat.

Projects of all sizes and across multiple years will be considered.

Interested? Call Kirsti Sampson Ph: 4475 1004 or email [kirsti.sampson@lls.nsw.gov.au](mailto:kirsti.sampson@lls.nsw.gov.au) to discuss opportunities available in the first round of funding.

To be eligible your property must encompass or be adjacent to wetland areas within the following priority areas (maps available on request or call to discuss eligibility):

- Bellambi Lake
- Lake Illawarra
- Elliot Lake
- Minnamurra River
- Coomonderry Swamp
- Shoalhaven River
- Wollumboola Lake
- Callala Creek
- Currambene Creek
- Swan Lake
- Berrara Creek
- Conjola Lake
- Burrill Lake
- Tabourie Lake
- Termeil Lake
- Durras Lake
- Runnyford/Buckenbowra
- Clyde River
- Tomaga River
- Lower Donalds Creek/Moruya River
- Congo Creek
- Tuross Lake
- Potato Point
- Lake Brou
- Lake Mummuga
- Wallaga Lake
- Wapengo Lagoon
- Nelson Lagoon
- Wallagoot Lake
- Bega River
- Pambula Lake
- Towamba River
- Wonboyn Lake
